OBJECTIVE

Motivated Computer Science graduate with a strong interest in Full Stack Development. Looking to join a dynamic tech team where I can apply my skills in web development, learn modern technologies, and contribute to impactful projects from day one.

EDUCATION

2021-2025	B.Tech, CSE at RGUKT, Nuzvid	(CGPA:8.58)
2019-2021	Pre University Course at RGUKT, Nuzvid	(CGPA:8.85)
2018-2019	Class 10th at MCBH School, Jagannaickpur, Kakinada District	(CGPA:10.00)

SKILLS

Programming Languages	Java, Python, C, SQL
Web Technologies	HTML, CSS, JavaScript, ReactJs
Databases	MySQL
Tools and Packages	Ms Office, Git
Soft Skills	Communication, Problem Solving, Team Management and Time Management

PROJECTS

CertiFier Feb 2024 – May 2024

Created a decentralized NFT Marketplace called **CertiFier** using **Solidity** and **React**. Developed **smart contracts** for minting NFTs, ensuring **100% security**. Deployed the application using **Hardhat**.

Email Scanning System 2024

Developed a Java-based desktop application using **Swing** and **PostgreSQL** for efficient scanning, managing, and filtering emails to detect and block spam or phishing mails.

Student Stress Prediction and Health Risk Detection 2024

Student stress is a rising problem in educational environments, frequently harming both mental and physical health. This project entails the use of **machine learning** to analyze stress levels and health risks using features like grades, peer relationships, and extracurricular activities. Stress is classified as acute, episodic, or chronic, with each linked to risks such as anxiety, sleep disorders, or chronic exhaustion.

Portfolio Website [Live Link](#)

Developed and deployed a **responsive personal portfolio** using **HTML**, **CSS**, **JavaScript**, and **React** to showcase skills and projects. Integrated **EmailJS** for contact form functionality and hosted the site on **Render**. Features include **dark mode**, mobile responsiveness, and interactive animations.

Driver Onboarding Portal 2025

Built a full-stack web application using the **MERN stack** to streamline driver registration and onboarding. Implemented secure **JWT authentication**, multi-step forms for data collection, document uploads, and a dedicated **admin dashboard** for reviewing applications and updating statuses.

INTERNSHIPS

Java With Full Stack

May 2024 - June 2024

Edubot, Vijayawada, AP.

Learned and developed full stack web application using **Java**, **React** and **Postgresql**. Participated in code reviews. Gained hands-on experience with version control using Git.

CERTIFICATIONS

Fullstack with Java, Edubot, June 2024

Resume, Networking, and Interview Skills, edX, May 2024

Version Control, Coursera, November 2023

Programming with JavaScript, Coursera, November 2023

LANGUAGES

1. Telugu
2. English
3. Hindi
